

Jefferson Community College

Watertown, New York

Health Information for Senior Nursing Students

Completed information must be returned to Heather Natali, Senior Secretary-Nursing, Bldg. 5(Gregor), Rm. 211 by July 15 for Senior nursing students.

PPDs (**must read & follow requirements** on last page) can be obtained for a fee at:

- Jefferson County Public Health Department, 315-786-3730 on Wednesdays, 12:30 pm – 3:30 pm; ***by appointment only***
- North Country Family Health - Health & Wellness Center at Jefferson Community College, 315-786-1042; ***by appointment only***
- Most local Urgent Care Centers
- Through many primary care physician offices

If you have questions regarding your health clearance, or need assistance in completing these requirements timely, please contact Heather, Senior Secretary-Nursing at 315-786-2319 or hnatali@sunyjefferson.edu

CPR cards (American Heart Association) must be renewed annually. This must be completed **before** the first day of class. CPR certification proofs are to be provided to the nursing department secretary, Heather Natali, not later than September 1st for Traditional option students and January 1st or date of original certification for Weekend option students.

Senior Nursing students begin clinical the first week of classes.

HEALTH REPORT AND PHYSICAL EXAMINATION

Basic to good student health care is the College's knowledge of the health status of each student. This physical for clinical rotations is the foundation of each student's medical record at the College and thus is a critical element in that knowledge. The information provided by this form will be reviewed by the College's Health Care professional staff in the Health office. It is then filed in the Nursing program office.

The authority to request this information is found in Section 355 of the Education Law.

You will not be allowed to attend your clinical rotation until this form is complete and submitted to the Nursing program office for review.

The Nursing faculty will be notified when a student is cleared to attend clinical.

An accurate medical record enables better health service and health guidance of a student than would be possible without it. For this reason, it would be appreciated if considerable care is used in filling out this form.

Consent to Release Health Information - I am aware and understand that: In order to maintain the health and safety of their clients and meet designated health laws, agencies used for clinical and/or field placement experience may require selected information from my health record. I authorize release of this required information to said agencies and to the program faculty.

**NURSING AND ALLIED HEALTH STUDENTS
CLINICAL REQUIREMENTS**

Please provide documented proof of the following to the Nursing program office:

1. **Mantoux Tuberculin SkinTest (PPD) within 90 days of clinical - required:** Please review the information below and complete the requirement applicable to you:
 - First time receiving a PPD or more than 12 months since last PPD = Two Step Method** (requires two PPDs): must submit copy of both PPDs, or
 - Had a PPD within past 12 months = One PPD:** must submit copy of both PPDs

PPD Test #1: *Most current PPD must be no more than 90 days before beginning clinical experience* (if another PPD within 12 months, must also provide that copy).

- PPDs must be read within 48-72 hours after placement of PPD skin test

Date 1st PPD placed _____

Person/Title placing test _____

Date PPD read _____ Result documented in millimeters _____ mm

Person/Title reading test _____

If at any time a PPD is positive, NO more PPDs to be placed, and will need an (FDA) approved blood assay for the detection of latent tuberculosis infection. Positive blood assay requires chest x-ray, appropriate clinical follow-up and TB exam form (obtain from Nursing Department).

- If 1st PPD is negative, then 2-step PPD placed a minimum 7 days after 1st PPD

PPD Test #2 - Two Step PPD Testing (placed a minimum of 7 days after PPD #1):
Most current PPD must be no more than 90 days before beginning clinical.

Date PPD placed _____

Person/Title placing test _____

Date PPD read _____ Result documented in millimeters _____ mm

Person/Title reading test _____

2. Tdap (Tetanus/Diphtheria/Pertussis): Required Current Tdap (or past Tdap)
3. Varicella: Two-part series or lab work demonstrating immunity
4. MMR Series (measles, mumps, and rubella) or lab work demonstrating immunity
5. Hepatitis B Series: Completed/In-Process Hep B Series, or annual Hep B declination
6. Influenza vaccination: Required annually for nursing – due in late October
7. COVID vaccination/booster: Recommended for all Nursing students
