

AGREEMENT FOR ARTICULATION OF ACADEMIC PROGRAMS

Between

ALFRED STATE COLLEGE AND JEFFERSON COMMUNITY COLLEGE

The above institutions enter into a 2+2 agreement for transfer of Jefferson Community College students into the Forensic Science Technology program at Alfred State. This agreement is designed to help students select courses in their academic program that will transfer effectively and will allow students to complete the Bachelor of Science degree at Alfred, in Forensic Science, in two additional years of study.

OBJECTIVES OF THIS AGREEMENT

1. To attract qualified students to Jefferson Community College and Alfred State College.
2. To promote the efficient transition of transfer students from JCC into Alfred State's Forensic Science Program with junior status and the possibility of baccalaureate graduation in four additional semesters of study.
3. To provide specific information and guidelines for transfer students.
4. To encourage academic coordination and cooperation, including curricular reviews, on-site visitations and joint academic advising for students attending JCC.

STIPULATIONS OF THIS AGREEMENT

1. This agreement will apply to JCC transfer students who have successfully completed (or on track to complete) the Associate of Science (A.S.) degree in Mathematics and Science – Science.
2. Upon application to Alfred State, after three semesters, students with a minimum grade point average of 2.5 will be accepted for admission.
3. Once students have completed their A.S. program in Mathematics and Science at JCC, a final transfer credit evaluation will be completed at Alfred State. Students must have passed a minimum of 62 credit hours that are transferable in order to receive junior status at Alfred State.
4. Alfred State will only consider transfer of courses where the student scores a “C” or better.
5. It is recommended that students consult with the 2+2 Mathematics and Science Liaison at JCC, and the Transfer Counselor at Alfred State, to ensure proper course selection.

MUTUAL RESPONSIBILITIES

1. It is the responsibility of both institutions to inform the other if changes are made in the curriculum that may affect the transfer of students. This will be the responsibility of the two designated liaisons.
2. The JCC Mathematics and Science Liaison will be responsible for assisting the transfer applicant in compiling the required credentials for application, including the transfer application form, official transcripts, and recommendations.

3. Alfred State's Admission Office will forward a letter of acceptance after processing the application. A transfer credit evaluation (including both credits accepted and credits remaining to complete the B.S. degree) will be provided by Alfred State's Transfer Counselor, and financial aid award information, if applicable, will be provided on line after the applicant completes the normal financial aid application procedures.
4. Transfer students applying under this agreement are eligible for the same financial aid and housing considerations as other entering students.
5. As requested, Alfred State will provide general information on the progress, and if available, post-graduate plans of JCC students who transferred to Alfred State.

ASSISTANCE PROVISIONS

1. JCC will incorporate a summary of this agreement into official publications.
2. JCC and Alfred State both agree to encourage qualified students to participate in this program by providing advising, information, and other assistance necessary to ensure that an easy transition from JCC to Alfred State will occur.

REVIEW/REVISION PROVISIONS

1. Review of the contents of implementation of this agreement will occur whenever requested by either JCC or Alfred State through the designated liaisons. Substantive changes in the courses or program of either institution will evoke review processes.
