**IMMUNIZATION REQUIREMENTS**
New York State Public Health Law 2165 requires students at post-secondary institutions, enrolled in six or more on-campus credit hours, to provide proof of immunity to measles, rubella, and mumps. Students born prior to January 1, 1957, are exempt from this requirement.

In order to attend classes, all students must submit completion of the above two requirements.

For the purposes of the college MMR immunization law, proof of immunity for measles, rubella, and mumps shall mean the following:

**Measles (rubeola):** Two doses of the measles vaccine one given no more than 4 days before the 1st birthday and the 2nd one at least 28 days after the 1st or serological evidence of immunity.

**Rubella (German measles):** One dose of live virus rubella vaccine given no more than 4 days before the 1st birthday or serological evidence of immunity.

**Mumps:** One dose of live mumps vaccine given no more than 4 days before the 1st birthday or physician documented history of disease or serological evidence of immunity.

Consult parents, doctors, a former high school, or a public health clinic to obtain copies of immunization records.

Also, New York State Public Health Law 2167 requires Institutions to distribute information about meningococcal disease and its vaccination. Once reviewed, selection from the Meningitis Response Options is required. (Third column)
