How to connect to JCC Student Wireless Network for Windows XP

Step 1: Right click the network icon located at the bottom right of the screen.

Step 2: Click open network connections.

Step 3: Right click on the Wireless Network Connection icon. Click on properties.
Step 4: Click on the Wireless Networks button on the top. Click on the Add button.

Step 5: Type in JCC-Students (no spaces)
Step 6: Change Network Authentication to WPA2

Step 7: Click on the Authentication button.
Step 8: Change the EAP type to Protected EAP (PEAP)

Step 9: Click on the Properties button.
Step 10: Click on the Configure button.

Step 11: Click on the box to uncheck it. Click on the OK button.

Step 12: Click on the OK button.
Step 13: Click on the OK button.

Step 14: Click on the OK button.
Step 15: At the bottom right of your screen click on the box that says “Click here to select a certificate or other credentials for connection to the network JCC-Students.”

Step 16: Type your username. Press tab and type your password (username and password are the same information used to logon campus computers) Leave logon domain blank and click Ok

Step 17: At the bottom right of your screen click on the box that says “Click here to process your logon information for the network JCC-Students”
Step 18: Click the OK button.

Step 19: You are now connected to the JCC-Student wireless network.

If you cannot connect or have difficulties connecting, please contact the helpdesk.
