

How to Apply

Admission to SUNY Jefferson

Jefferson Community College is a member of the State University of New York (SUNY) and is officially designated as a full opportunity college. Admission to SUNY Jefferson is determined without regard to race, color, sex, religion, age, national origin, disability, or sexual orientation of the applicant.

General Information

Admission is open to any individual whose academic records, potential and personal qualifications indicate that he or she could successfully pursue one of the programs of study. SUNY Jefferson is sponsored by Jefferson County and residents of the county are given first preference for admissions, but the College accepts and encourages applicants from other counties as well as other states.

Admission Requirements

Admission to a program of study will be determined by individual academic preparation. Applicants must be a graduate of an accredited high school, have earned a GED (high school equivalency diploma) or meet the academic standards on the College Placement Test (CPT). Diplomas such as IEP (Individual Education Program diploma) are not valid for admissions unless the school certifies the student has met all requirements including successful completion of the New York State Regents competency tests.

Applicants who have not completed high school graduation requirements will be considered for admission based on their demonstrated ability to benefit from college level work. Their ability to benefit will be determined by CPT scores administered by the SUNY Jefferson testing center. Students who are admitted but do not have a high school diploma must complete their equivalency diploma. The equivalency diploma may be completed by the GED Exam or by earned credit (see the 24 Credit Hour Rule). These credits can generally be applicable to degree or certificate requirements. Contact the Admissions Office for details.

The College reserves the right to determine full or part-time study, admissibility to certain programs and matriculated status.
