   d. Violation of one or more of the college policies/ regulations regarding facility use (i.e. use of alcohol on campus).
E. Use of College Facilities for Political Purposes

1. Every campus has a responsibility to develop its students as fully participating citizens; this includes the development of political literacy. The College has a definite responsibility for sponsoring some kind of non-partisan forum for the exchange of political ideas and for encouraging the formation of students’ own partisan organizations;

2. Student partisan political organizations are not different from any other student organization as to regulations governing recognition, membership, sponsorship and use of facilities. The campus, in permitting such groups to use its facilities, is responsible to see that there is equal opportunity for meeting of the various student groups – either for those groups’ own membership or for students generally;

3. When students sponsor activities which include the general public, they should bear in mind that in each case the institution is being represented to the public and that the institution must, therefore, be assured that the activity is in conformity with its purposes. These purposes will largely determine the type and extent of faculty or administrative control over the scheduling of such events;

4. Assemblies and convocations focused on political matters are appropriate means for augmenting curriculum offerings, enriching the cultural background of the students, and providing contacts with leaders outside the campus faculty. Therefore, the College should welcome and encourage meetings of this kind. To the extent that space permits, the campus-sponsored meetings for students should be open to interested members of the public. The number, form and time of such programs are matters for the discretion of each campus. They should, however, include partisan as well as non-partisan subjects and leaders and should promote interest in, and understanding of, our political governmental system, especially the responsibilities and opportunities of the citizen through our party system. The campus accepts responsibility for insuring that any partisan program be part of a scheduled series which presents a balance of views;

5. Upon proper application to the Campus Events Coordinator, non-partisan groups ordinarily may be permitted to use the facilities of the campus for discussion of political or civic issues. Approval, however, will be granted subject to such conditions as the Campus Events Coordinator may require, and only if the desired facilities are available without interference with regular student or faculty activities;

6. Partisan political organizations may be permitted the use of College facilities under the conditions already noted and additionally subject to the following conditions:
   a. That the proposed meeting give promise of contributing to the educational purposes of the campus; and
   b. That the campus sees a reasonable possibility of making the facilities available for other viewpoints to be presented.

7. College facilities will not be made available for advocacy directed to inciting or producing imminent lawless action and which is likely to incite or produce such action.
